

WiiM

WiiM Sub Pro
Experience Bass Like Never Before

Meet WiiM Sub Pro

The WiiM Sub Pro is a high-performance wired and wireless subwoofer designed for audiophiles and home entertainment enthusiasts seeking deep, powerful, and distortion-free bass. With rich low-frequency response down to 25Hz, it brings movies, music, and games to life with unparalleled depth and impact.

Harnessing AI-driven RoomFit™ auto-calibration, the WiiM Sub Pro precisely adjusts bass output based on your room's unique acoustics, delivering optimized, room-filling sound.

Equipped with the latest Wi-Fi 6E and Bluetooth 5.3 with LE Audio support, it ensures ultra-low latency, robust connectivity, and seamless multi-device integration.

Take full control of your sound with the WiiM Home App, offering precise EQ tuning, crossover adjustments, phase control, and latency customization for a truly tailored audio experience.

Seamlessly integrate the WiiM Sub Pro with WiiM streamers, amplifiers, and speakers, or connect it to third-party devices with a subwoofer output, ensuring tight, clean bass performance for any setup.

Key Features

1. Powerful & Distortion-Free Bass
 - 250W of deep, clean bass with less than 1% THD+N, delivering an immersive experience for movies, music, and gaming.
2. AI-Driven Room Calibration for Precision Bass
 - RoomFit™ Auto-Calibration takes precise acoustic measurements, adjusting bass to match your room size, speaker placement, and listening position.
3. Next-Gen Wireless Connectivity
 - Wi-Fi 6E for a low-latency, high-bandwidth connection, ensuring stable and interference-free performance.
 - Bluetooth 5.3 with LE Audio for flexible connectivity with supported devices.
4. Advanced App Control for Custom Sound Tuning
 - The WiiM Home App allows for precise EQ adjustments, crossover tuning, phase control, latency customization, and subwoofer level adjustments.
5. Elegant, Acoustic-Optimized Design
 - Premium cabinet construction with custom-designed woofers, engineered for vibration-free, resonance-free bass even at high volumes.

- Sleek, modern aesthetics that blend effortlessly into any home décor.
6. Seamless Integration with WiiM & Third-Party Systems
- Designed to work flawlessly with WiiM streamers, amplifiers, and speakers for a cohesive audio ecosystem.
 - Connects easily with third-party devices featuring a subwoofer output, ensuring broad compatibility.
7. Always Improving with Firmware Updates
- Regular over-the-air updates introduce new features, enhancements, and performance optimizations, keeping your system at the cutting edge.

Tech Specs

- Audio
 - Amplifier
 - Class-D digital amplifier.
 - 250 W.
 - Speaker
 - Driver Size: 8-inches.
 - Sensitivity: 104 dB SPL, 1W@1m
 - Frequency Range: 25~200 Hz, +/-3 dB for 30~200Hz
 - Max Power: 250W, THD @1%
 - Audio input
 - Analog RCA Mono.
 - EQ
 - A 10-band parametric EQ for precise sound adjustments.
 - Automatic room correction.
 - Subwoofer Control
 - Comprehensive bass management.
 - Adjustable crossover frequency, level, phase, and latency.
- Connectivity and Power
 - 100-240V AC input, 50/60Hz, 3A Max.
 - Wi-Fi 6E, 250b/g/n/ac/ax 2.4 GHz, 5 GHz, and 6 GHz triple bands.
 - Bluetooth 5.3 with BT LE audio.
 - Ethernet, 10M/100 Mbps.
- Physical
 - Dimension: 15.7 x 11.8 x 12.7 inches (399 x 301 x 322 mm).
 - Weight: 35.2 lbs (16 kg).
 - LED: Four-color (RGBW) LED indicates device status.
