The new driver generation with AlNiCo magnet system and wooden cone

2013's second innovation presented Voxativ - the Voxativ AC-4A driver is equipped with a cone made of real wood.

Upon a new AlNiCo magnet is used. This reaches 2.4T in the gap and has an underhung coil.

A breathtaking bass response in our Ampeggio Due housing gives a 15" woofer feeling, but with much more speed.

Mids and highs are getting again more clarity and detail. A showpiece with a weight of 11 kg.

The Ampeggio due system can now be equipped with the new Voxativ AC-4A.
